ADA HIGH SCHOOL

TO BEGIN WITH ———

This was a year which brought many interesting and pleasant activities for everyone. Through the planning of the teachers and administration, we added a new vocational agriculture and industrial arts building, new desks, and a staggered lunch period.

We will remember the hustle and bustle when a deadline had to be met. The reason — to produce a book that you will like.

THE CONTENTS by following the seasons will bring back memories of the excitement of fall, the bleak stillness of winter, the lethargy of spring that held us for their time in their power.

AUTUMN

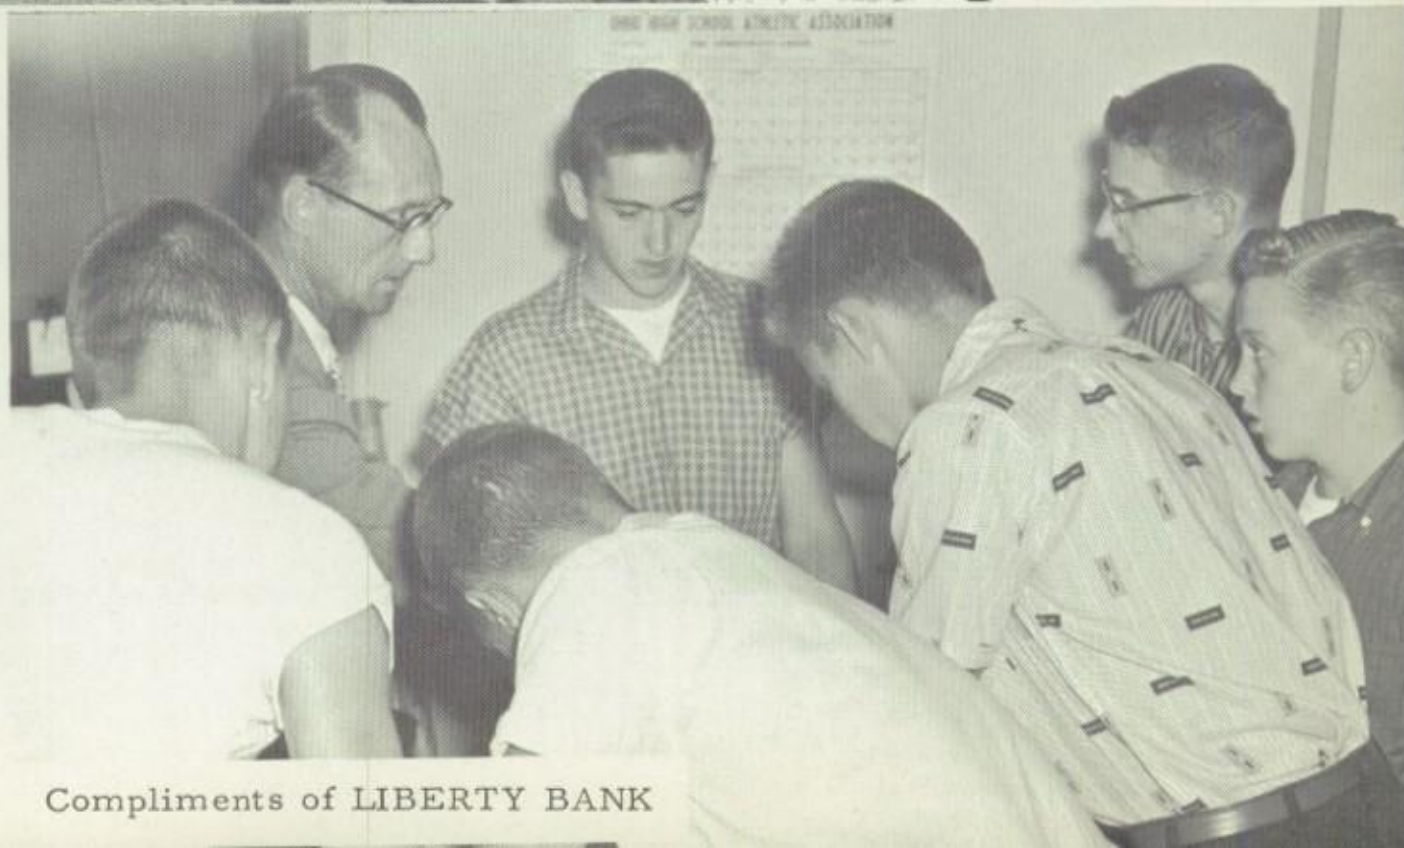

When fall
once again
hailed the
beginning
of school,
some of us—

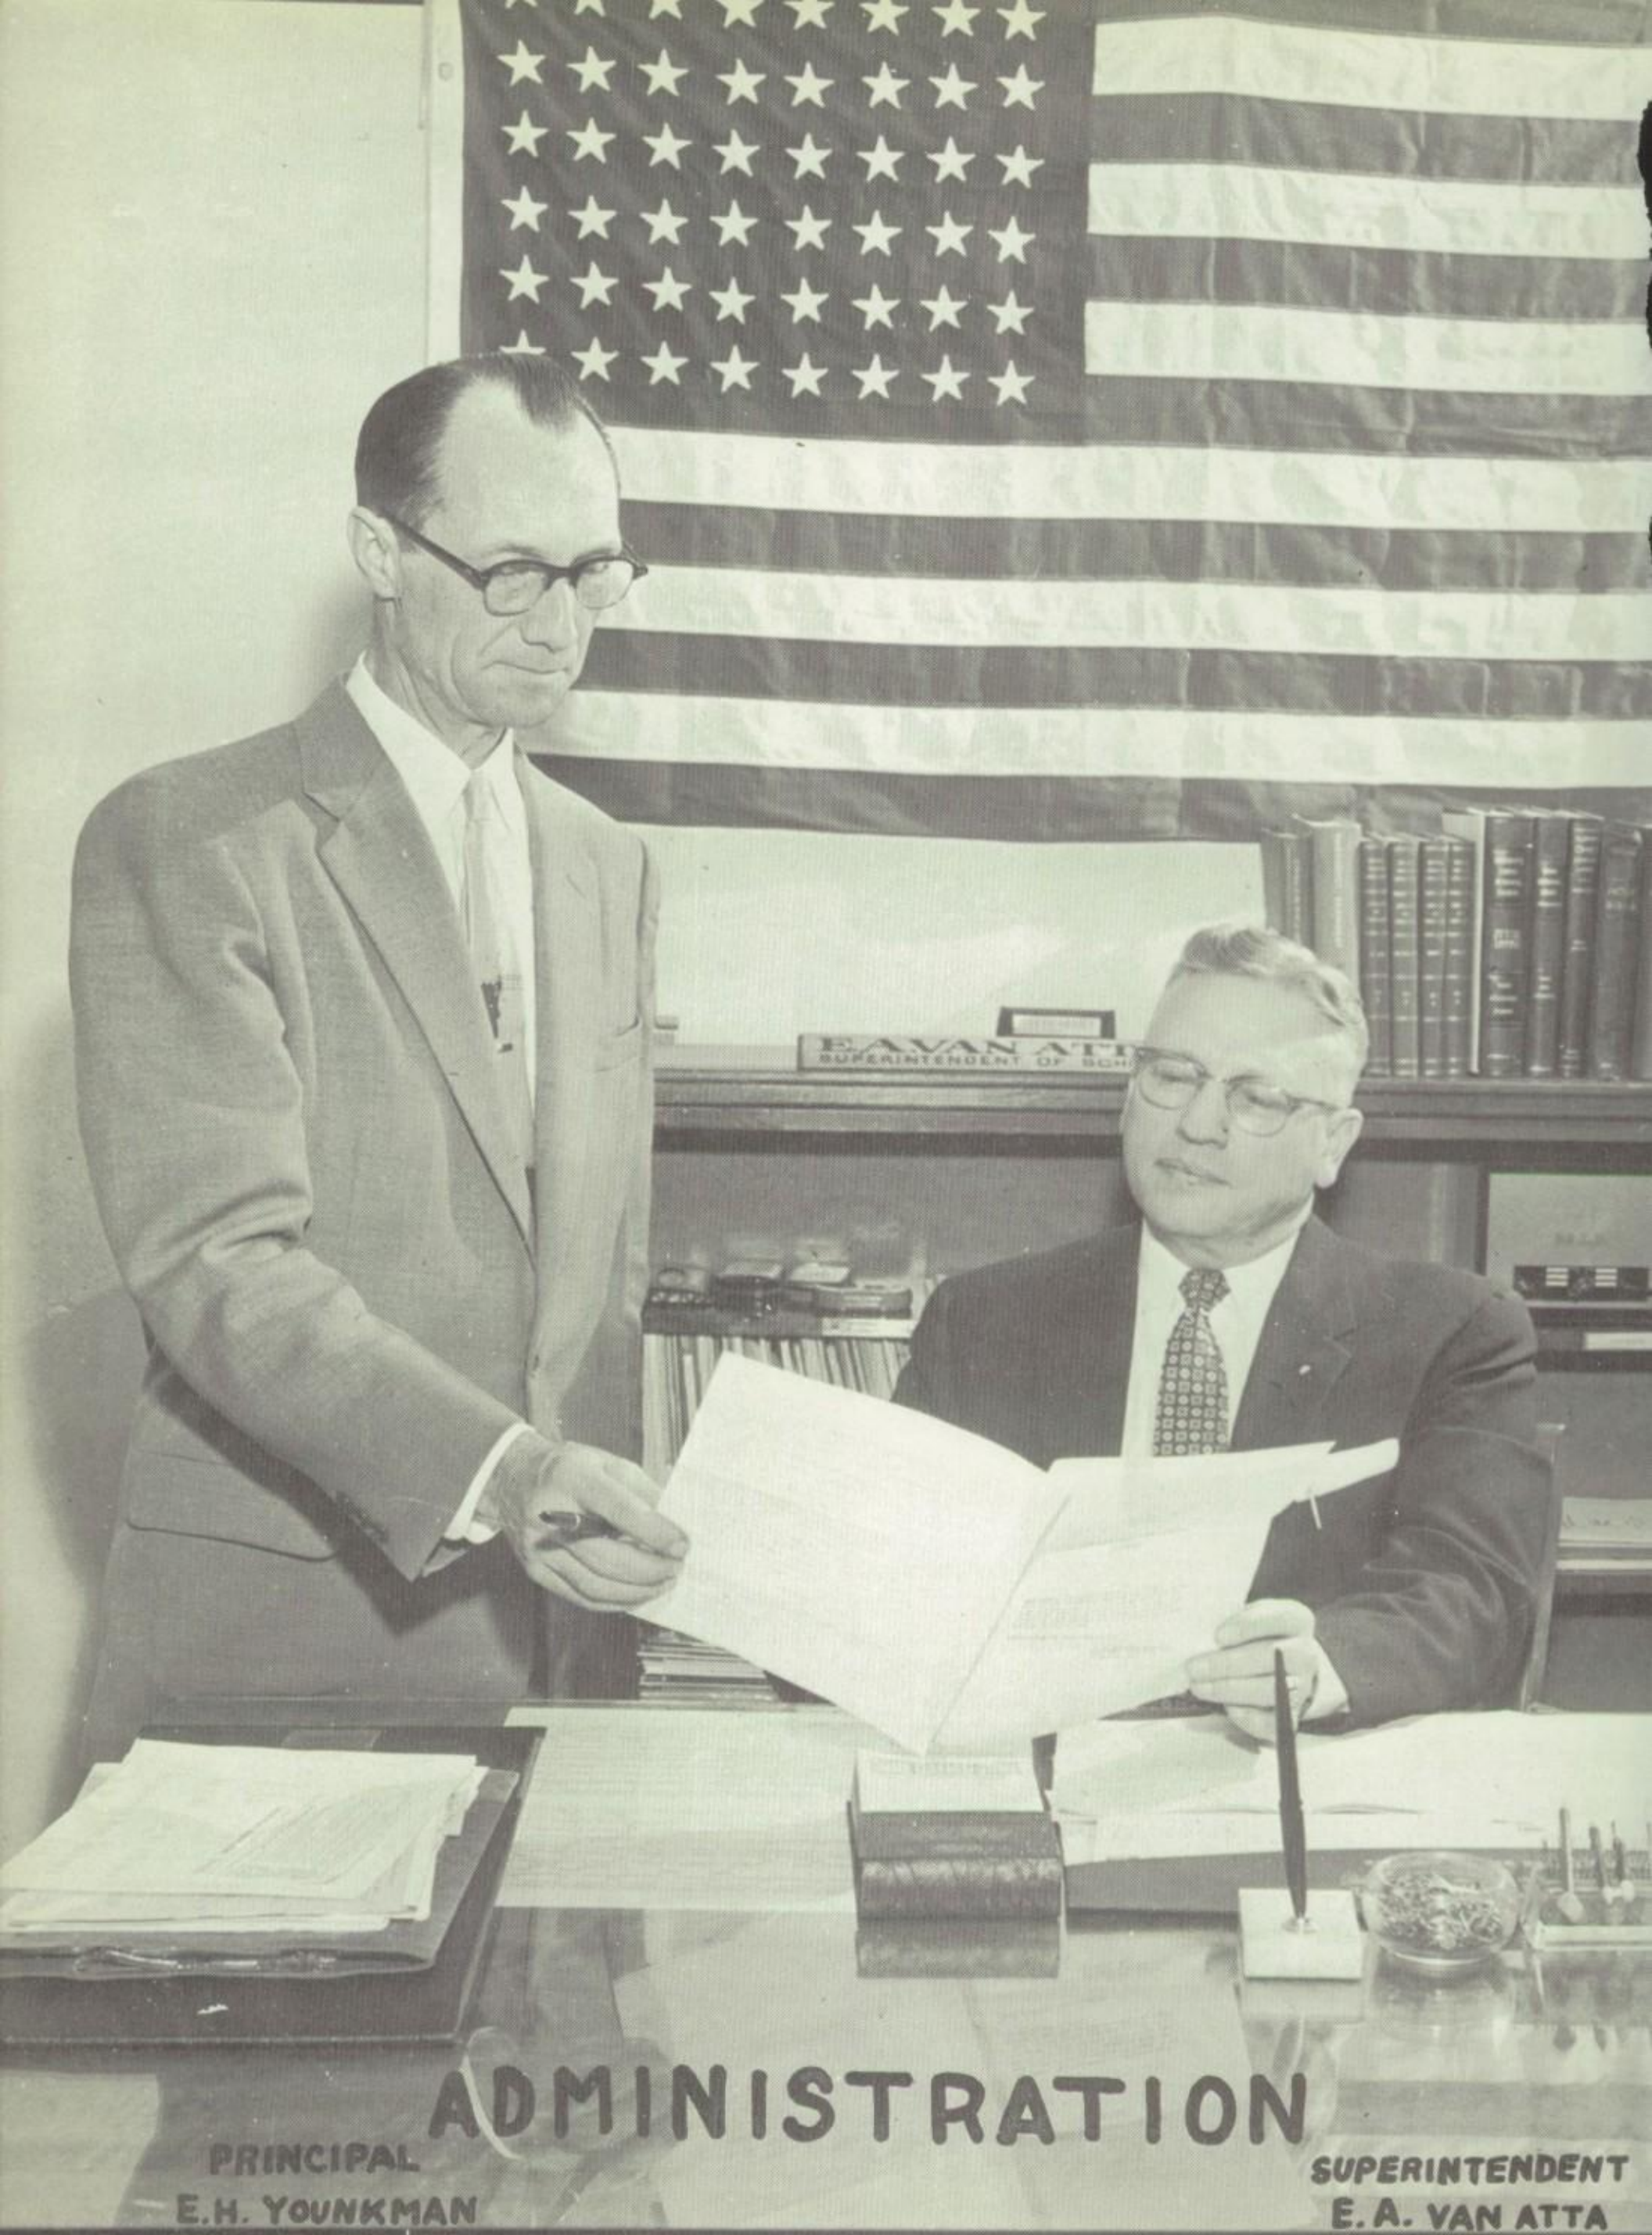

were glad
to return
while others
were reluc-
tant. But
after we had
greeted—

our friends
and teachers,
we were
looking for-
ward to the
coming year.

INDUSTRIAL ARTS periods are as productive as they are interesting.

CHEMISTRY experimentation—or is it trial and error—gives understanding to illusive formulas and equations.

The **SOLID GEOMETRY** class constructs polyhedrons and designs their own version of Sputnik to aid them in understanding three dimensional problems.

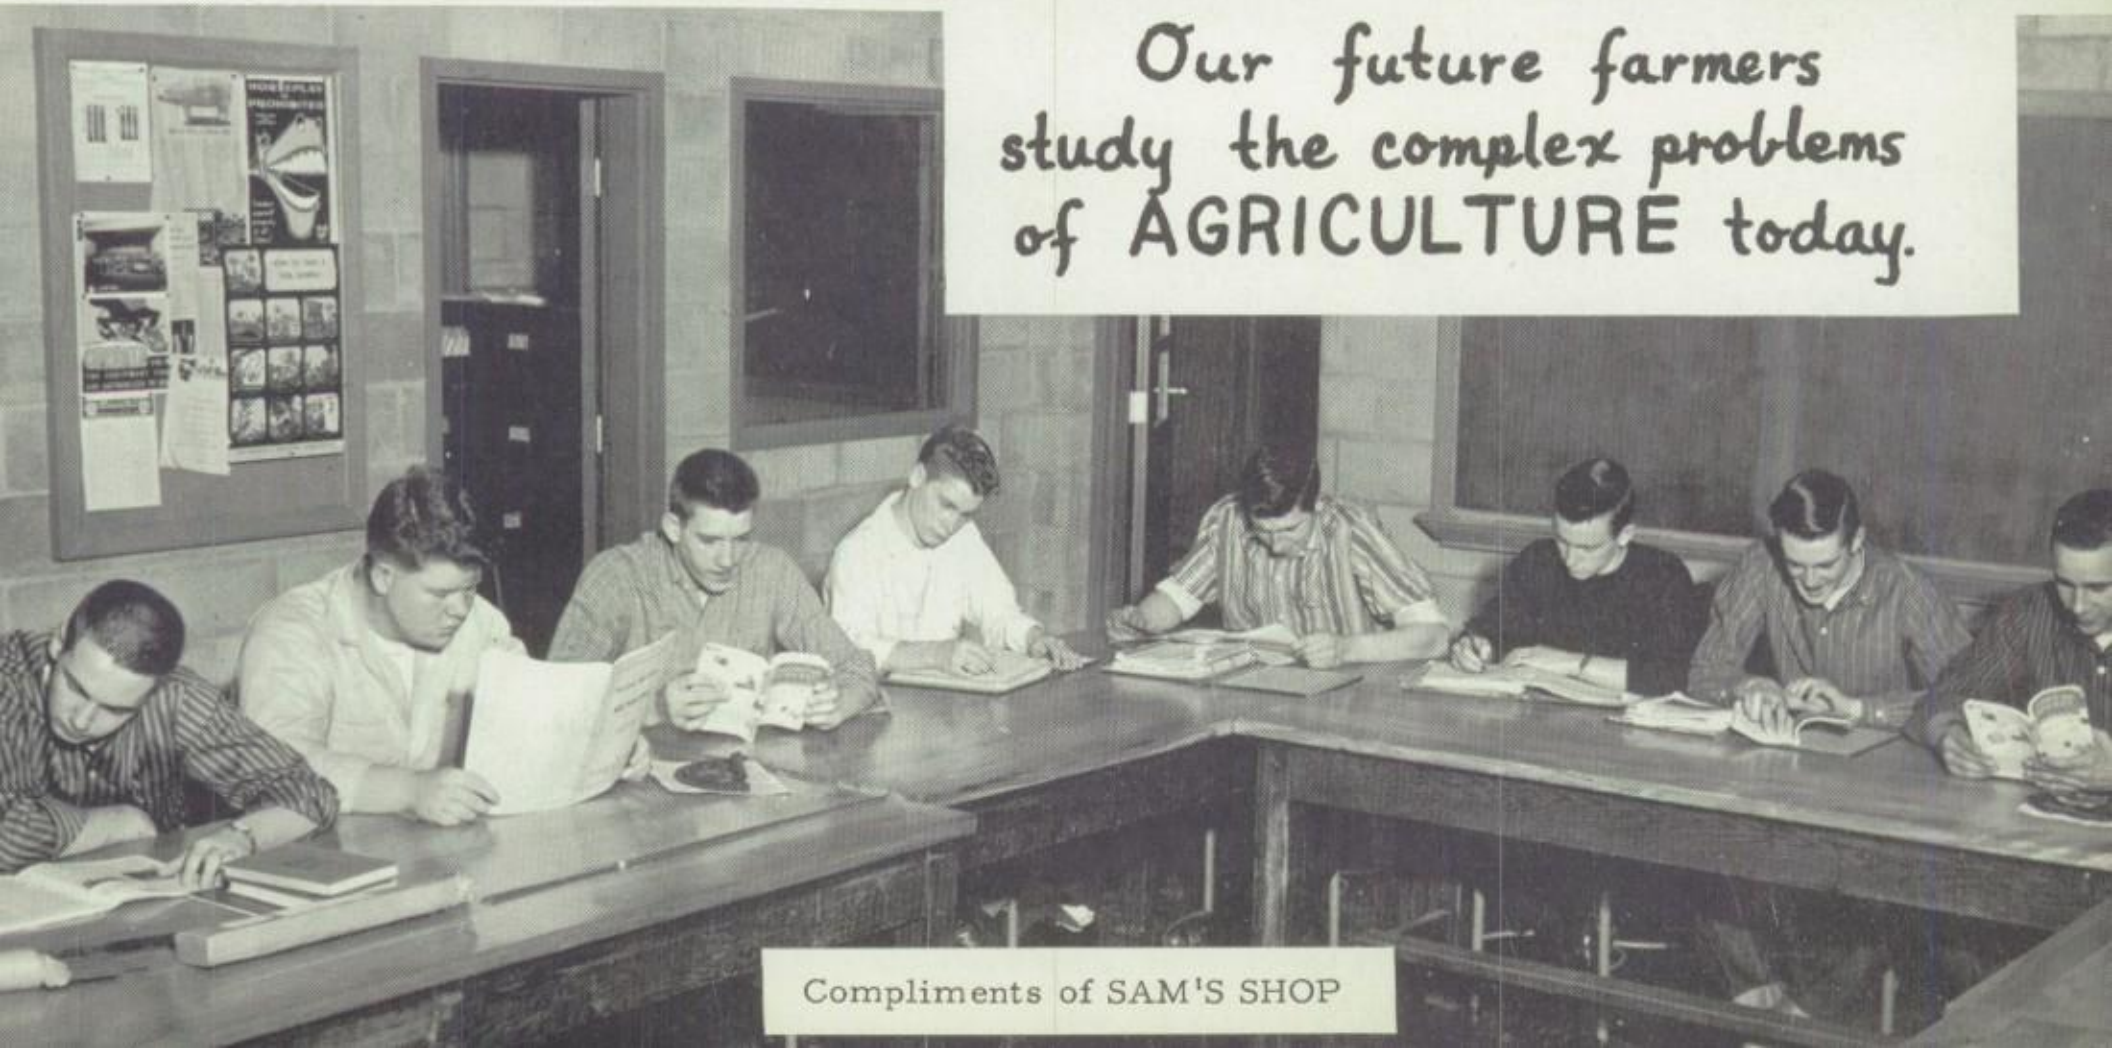

Lively
discussions may
not solve world
problems, but they
give **SOCIAL

students a better
understanding of
our government

The correct way
to set a table is

"The REMARKABLE INCIDENT at CARSON CORNERS"

CAST OF CHARACTERS

Robert Chrismer, Marvin Curtis, Helen Darlington, Duane Fletcher, Patty Gose, George Hindall, Jay Ladd, Bill Loescher, Joyce Long, Scottie Moore, Margaret Moorman, Joyce Oldaker, Dick Parshall, Lou Ann Park, Diane Parkhill, Irene Plummer, Edna Poling, John Pothier, Nancy Shadley, Raymond Schick, Burl Shulaw, Betty Smith, Linda Smith, Tom Truman, Barbara Ulrey, Donald Staley.

The stage was set with no scenery or props except a few chairs. The students had invited their parents to a surprise "entertainment" which they had prepared. The happy, smiling parents were shocked into stunned silence when the students began a mock trial. A few months before a student had either fallen or been pushed to his death from the school fire escape. One revelation led to another and soon the entire community found itself involved in the responsibility for the boy's death. This was an adult play about young people, the schools, and the community. It was a living demonstration of what John Donne put so aptly:

"No man is an island, entire of itself; every man is . . . a part of the main . . . and any man's death diminished me, because I am involved in mankind . . ."
